Who We Serve:

With over five decades of documented success supporting a wide range of domestic and international customers, CSPi's ingenuity and experience makes us a market leader and a master systems integrator. Our specialty products, multi-vendor solutions and technical services meet and exceed the needs of performance-sensitive and highly regulated vertical markets including manufacturing, oil & gas, education, healthcare, aerospace, military and defense, government, maritime, retail, telecommunications, utilities & energy, and many others.

Our Partners:

CSPi Technology Solutions is proud to partner and collaborate with the best technology companies in the world.**

Professional Services:

Our comprehensive range of professional services encompasses the entire IT life cycle, enabling seamless integration of new technologies and accelerating time to market. We collaborate closely with leading technology providers to deliver state-of-the-art solutions to our clients. Our team of engineers possesses extensive industry knowledge and holds specialized certifications in five core technology areas: Networking, Wireless and Mobility, Unified Communication and Collaboration, Data Center, and Advanced Security. With our professional services, you can trust that your IT infrastructure will be optimized, secure, and aligned with industry best practices.

Vital™ Managed IT Services:

By outsourcing managed IT services to CSPi Technology Solutions, you can achieve significant cost savings compared to establishing and maintaining an internal IT infrastructure. This approach also allows your technology team to concentrate on strategic business initiatives. Our portfolio of Vital™ Managed IT Services offers the following solutions:

- ❑ **Vital Managed Monitoring and Management Services:** We provide continuous oversight of your critical IT infrastructure, 24/7/365, backed by our service-level agreements (SLAs). Our comprehensive network services combine endpoint and server management with proactive infrastructure management, ensuring optimal network performance and availability.
- ❑ **Vital Managed Security Service:** This all-encompassing security solution helps you mitigate risks and fortify your defenses. Our endpoint security solutions include data security, network security, advanced threat prevention, forensics, and remote access (via VPN) for comprehensive endpoint protection.
- ❑ **Vital Managed Data Backup & Disaster Recovery Service:** We offer the highest level of availability to eliminate data loss and ensure data protection. Leveraging virtualization technologies, we provide simplified backup and recovery for your critical data and applications, available on demand 24/7/365 and backed by SLAs. Additionally, we offer flexible disaster recovery solutions tailored to your business requirements, ensuring preparedness for unexpected events.
- ❑ **Vital Managed Collaboration Services:** Collaborative environments often suffer from fragmentation, with multiple service networks and different solutions for voice, video, contact center, and collaboration. Our offer provides management services that support your collaboration solution infrastructure through continuous monitoring and management.

CSPi Technology Solutions offers Professional Services, Managed IT Services, and Cloud Services to assist clients in architecting and managing a secure, high-performance, and highly available IT infrastructure. Our engineers have industry experience and specialized certifications in networking, wireless & mobility, unified communications & collaboration, data center, and advanced security technologies, ensuring tailored solutions for our clients' needs.
