Make your storage—and all of IT—smarter

To gain insights from your data you need to empower it, care for it, protect it, and make it accessible. Intelligent storage—the first step to self-managing IT—helps unlock data's potential.

Today, data is generated in unthinkable volumes. Intelligent storage enables economic value for every source, type, and locality of data:

- From HPE storage systems and Cloud Volumes
- From servers, hypervisors, VMs
- From the Web, social media, mobile devices, sensors, connected products

160 zettabytes by 2025

“Flexible Capacity is like having the features of cloud but on premises. … It’s a big part of our hybrid strategy.”
—Yamandu Correa, Global Network and Data Center Manager, YNAP

Intelligent storage solutions from HPE are part of a total experience for enterprise hybrid IT.

- Drives up costs
- Extends outages
- Fuels firefighting
- Makes data unavailable where needed

Intelligent storage enables economic value for every source, type, and locality of data:

- From HPE storage systems and Cloud Volumes
- From servers, hypervisors, VMs
- From the Web, social media, mobile devices, sensors, connected products

40x faster time to market4

65% reduction in storage-related OPEX5

79% reduction in cloud storage costs6

20X measured availability each year3

Better than 99.9999%

It works.
HPE customers using intelligent storage experience:

- AI-driven storage focuses IT on value creation
- This scale and complexity:
  - IT financing and investment solutions to drive your digital transformation
  - HPE Pointnext support and advisory services to accelerate your journey
  - HPE Greenlake Flex Capacity to enable pay-per-use economics right in your own data centers

Intelligent storage solutions from HPE are part of a total experience for enterprise hybrid IT.

- AI driven—provides intelligence for autonomous IT and data management
- Built for cloud—run any workload in any location
- As-a-service experience in your own data center—manage unpredictable growth

Managed your data across its life cycle, wherever it lives. Download the white paper Learn more about intelligent storage solutions, contact CSPi Technology Solutions at tech_solutions@cspi.com or call (800) 940-1111.
