HPE Memory-Driven Flash
New class of enterprise storage empowering data at the speed of memory

“...the single biggest concern enterprises identify is performance predictability. Not only do enterprises require predictably low latencies, but they need to ensure that they can continue to meet defined service-level agreements (SLAs) as their environments scale.”

– IDC

Go further, go faster, and go beyond all-flash to break through the status quo

Four requirements to break through the performance barrier

Introducing HPE Memory-Driven Flash
New class of enterprise storage empowering

Making speed of memory practical and easy for everyone
