CSPi Technology Solutions
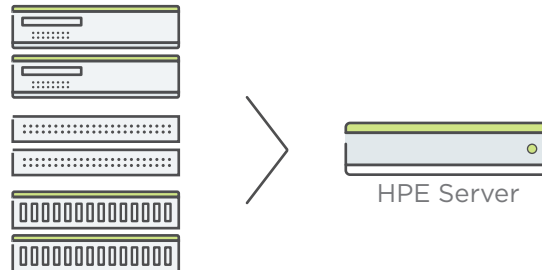

Nutanix on HPE servers in 30 seconds

Why?
Invisible Infrastructure

Nutanix is on a mission to make datacenter infrastructure invisible, elevating IT to focus on applications and services.

Just Works

Removes Constraints

Eliminates Guesswork

What?
Enterprise Cloud Platform

Nutanix natively converges compute, storage and virtualization into a turnkey enterprise cloud platform that can be deployed in 30-60 minutes, and runs any app at any scale.

HPE Server

How?
Web-Scale

The Nutanix Enterprise Cloud Platform is uniquely built using web-scale technologies and architectures that originated in large Internet companies such as Google, Facebook and Amazon and delivers cloud-like agility and lower costs.

HPE® is a registered trademark of HPE®.
