

# Transform your Business with Vital Cloud Services from CSPi Technology Solutions

## ABOUT VITAL™ CLOUD SERVICES:

CSPi Technology Solutions' Vital™ Managed Cloud Services provides industry-leading cloud services that are perfect for your business. With our Managed Cloud Services, you'll save time, improve agility, scalability, and reduce overall costs.

### *What our customers are saying*

"CSPi delivers world class service while providing their clients personalized service. They have assembled a great team of experts that are always willing to help."

*—Jose Garcia, VP of Technology, Health Communications, Inc.*

## WHAT WE OFFER

Our team will work with you to determine the right mix of cloud services to meet your specific business goals.

We offer Microsoft Azure a growing collection of integrated cloud services – including analytics, computing, database, mobile, networking, storage, and web – that help businesses move faster, reduce costs, and achieve better business results. When it comes to designing and deploying a cloud infrastructure, Azure offers the right combination of technology options, design flexibility, and architecture scalability.

Our experts provide the support to help you transition to cloud services as fast, easy, and hassle-free as possible. We eliminate the burden related to managing complex cloud services.

# Why Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
