WHAT WE OFFER

Our team will work with you to determine the right mix of cloud services to meet your specific business goals.

We offer Microsoft Office 365 an integrated solution providing best-in-class productivity tools, security, and device management capabilities for small to mid-sized businesses. Microsoft Office 365 delivers a complete set of productivity and collaboration tools, including Microsoft Office applications, and makes sure they're always up-to-date with the latest upgrades, fixes, and features.

Our experts provide the support to help you transition to cloud services as fast, easy, and hassle-free as possible. We eliminate the burden related to managing complex cloud services.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
